**RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In response to the Notice of Incomplete Non-Provisional Application, please consider the following remarks.

Appl. No. : 10/802,970  
Filed : March 16, 2004

### REMARKS

Applicants received a Notice of Incomplete Non-Provisional Application ("the Notice") mailed on June 1, 2004. In partial fulfillment of the requirements set forth in the Notice, Applicants mailed to the Office on June 10, 2004 a petition to restore the filing date of March 16, 2004, submitting that the application as originally filed was complete and contained all the drawings.

The Notice also required that the Applicants submit a new oath or declaration because the oath or declaration submitted with the application allegedly did not identify the complete mailing address of each inventor. Applicants respectfully traverse. As provided in the Preliminary Amendment filed with the above-captioned application, the above-captioned application is a continuation of U.S. Patent Application Serial No. 10/409,782 which is a continuation of U.S. Patent Application No. 09/800,096, which claims priority to U.S. Provisional Patent Application Serial No. 60/187,2889. Along with the above-captioned patent application, Applicants submitted an oath or declaration that was filed with U.S. Patent Application Serial No. 09/800,906. A copy of the oath or declaration, as submitted with the above-captioned application, is attached herewith as Exhibit A. The complete mailing addresses of all of the inventors are set forth under their respective names in the oath or declaration.

As set forth in 37 C.F.R. § 1.63(d)(1), Applicants are not required to submit a new oath or declaration in a continuation application. Since the above-captioned application claims priority to U.S. Patent Application Serial No. 09/800,096, and since the oath submitted in U.S. Patent Application Serial No. 09/800,096 was filed with the above-captioned application and includes the complete mailing addresses of all the inventors, Applicants maintain that it is not necessary to provide a new declaration or oath.
